

# Transition to a **zero** carbon future.

a discussion group, the first Monday of each month

**6.30 -8.30pm Monday, 6th Oct.**

2nd floor, Kindness House, 288 Brunswick St, Fitzroy

**This month's quest speaker is  
Associate Professor Hugh Outhred.**

Associate Professor Hugh Outhred of the School of Electrical Engineering and Telecommunications at UNSW has been involved in electricity restructuring, energy planning and renewable energy in Australia since the 1970's.

He will speak about the possibilities for the extensive deployment of wind energy in Australia, as well as address issues such as wind variability and forecasting techniques, the potential difficulties in managing voltage and frequency disturbances and the cost of network connections.

Join us for an informed discussion on the future of wind energy.  
All welcome. Gold coin donation.

beyond**zero**emissions

Beyond Zero Emissions is a not-for-profit, climate change campaign group. We endorse the latest scientific findings that there is already too much greenhouse gas in the atmosphere, and that it must be **reduced to below current levels** in order to decrease the probability of sudden, irreversible and catastrophic climate change.

The discussion group exchanges information and ideas to transform Australia into a zero carbon economy as quickly as possible.
